FOR IMMEDIATE RELEASE

THE AZEK® COMPANY ANNOUNCES NEW CHICAGO HEADQUARTERS

Chicago, Ill.— December 19, 2018 – The AZEK® Company, parent corporation to leading manufacturing companies AZEK® Building Products, Versatex, Scranton Products, and Vycom, has announced the location of its new headquarters and training center in Chicago’s thriving Fulton Market neighborhood. The move solidifies AZEK’s commitment to growth and creating inspirational, sustainable building materials. Previously located in Skokie, Ill., the new headquarters is one of only two units in the building that is LEED Certified.

“We are thrilled to unveil the location of our new headquarters in Chicago,” says Jesse Singh, Chief Executive Officer of The AZEK Company. “We feel this location really speaks to who we are as a company – it’s modern while remaining accessible. It also gives us the opportunity to showcase our products in a unique light. Be it AZEK Building Products’ decking and cladding at reception to the bathroom partitions from Scranton Products, we are really proud of this new work environment. Also, as we continue to grow, we are confident this new space will help us attract and retain Chicago’s top talent.”

AZEK now occupies the third floor of 1330 W. Fulton Market, an office building developed by [Sterling Bay](#), the premiere real estate investment and development firm with expertise across the full spectrum of design, construction, leasing, asset management and hospitality. The 20,000 square foot office features an open, functional design that is conducive to collaboration. Inspired by the tranquility of great outdoor living, [Harley Ellis Devereaux \(HED\)](#) designed a “coastal calm” space that utilizes AZEK’s own products to create the essence of being outside.

“We’re not a decking company. We’re an imagination company,” says Jeanine Gaffke, Chief Marketing Office of The AZEK Company. “Every inch of our new office speaks to the design innovation we can deliver to homeowners.”

The new headquarters also features The Yard, an additional 2,200-square-foot training and event center. The space makes it even easier for guests, including the country’s top contractors, to receive hands-on installation training and comprehensive product education. The Yard, located at 316 N. Elizabeth Street, is set to open in early spring.
